Jack Burnett

PhD Student

jack.burnett@bristol.ac.uk Bristol, UK jackjburnett jackjburnett

Professional Summary

PhD researcher in Interactive AI at the University of Bristol, focused on democratising accessible hardware design through parametric modelling and co-design. Committed to responsible and inclusive technology, with experience spanning AI policy, public engagement, and education across secondary, further, and higher settings. Longer-term interests in AI ethics and technology policy.

Education

PhD **University of Bristol**, Interactive AI — Bristol, UK — Sept 2023 – present
- Responsible AI
- Interaction Design
- Applied Data Science
- Machine Learning Paradigms

MSc **University of the West of England**, Information Technology — Bristol, UK — Sept 2021 – Aug 2023
- Project Management
- Digital Design and Development
- Designing the User Experience
- Machine Learning

PGCE **University of the West of England**, Secondary Computing — Bristol, UK — Sept 2020 – June 2021
- Pedagogical Approaches
- Educational Policy
- Evidence-based Practice

BSc **University of Bath**, Computer Science — Bath, UK — Sept 2017 – July 2020
- Human-computer Interaction
- Intelligent Agents
- Safety-Critical Systems
- Computer Systems Architecture

Publications

Title withheld pending review — Oct 2026
Abstract available on acceptance.

(Under review)

Projects

Co-Designing Controllers: A Pipeline for Customisation of Gaming Input Devices using Generative AI and Parametric Design — May 2025 – present
PhD Thesis focusing on the impact and need for democratised controller development, which enables this design space through the use of parametric design and N-of-1 co-design studies.
- STL Generation
- Co-Design
- Hardware Democratisation
- Accessibility and Inclusive Design

Experience

Department for Education, UKRI Policy Intern — London, UK
May 2026 – Aug 2026
4 months

Supporting within the Behavioural Insights Unit with designing and delivering co-design workshops relating to Free Breakfast Clubs and Family Hubs, alongside conducting literature reviews and data analysis to inform place-based policy development. Contributed to strategic work on the responsible use of AI within the Standards and Testing Agency.

- Education Policy
- Co-Design
- Data Analysis
- Policy Research
- AI Policy Design

University of Bristol, Graduate Teacher — Bristol, UK
Sept 2024 – present
2 years 2 months

Assisting the teaching and lecturing within BSc modules such as 'Interactive Devices' and 'Interaction and Society'. Assisted with the supervision of BSc dissertations.

- BSc Supervision
- Interactive Devices
- Interaction and Society
- Higher Education

University of Bristol, Widening Participation Tutor — Bristol, UK
Oct 2024 – present
2 years 1 month

Planning and delivering seminars, workshops and other academic sessions to young people aged 11-18 to promote university engagement.

- Educational Outreach
- Teaching
- Secondary Education

Forward Futures Ltd., Associate Lecturer — Weston-super-Mare, UK
Sept 2023 – Jan 2024
5 months

Teaching network security, both for in-house systems and cloud technologies; qualifications taught were part of CISCO and Microsoft qualification suites.

- Network Security
- Cloud Solutions
- Further Education

Weston College, Lecturer in Computer Science — Weston-super-Mare, UK
Aug 2021 – Sept 2023
2 years 2 months

Teaching across BTEC, T-Level, and BSc courses within computing. Primarily taught units within data analysis and software engineering.

- Data Analysis
- Python
- SQL
- Cyber Security
- Higher Education
- Further Education

Cabot Learning Federation, Computing Teacher — Weston-super-Mare, UK
July 2021 – Dec 2021
5 months

Teaching computer science and DT for years 7-9, alongside A-Level computer science and BTEC Esports for years 12-13. Tutor for a year 7 group.

- Computer Science
- Python
- Esports
- Safeguarding
- Secondary Education
- Further Education

Caldicot Comprehensive School, Student Teacher — Caldicot, UK
Teaching computer science for years 7-10, alongside A-Level computer science for year 12. — Apr 2021 – June 2021
- Computer Science — 3 months
- Python
- Secondary Education
- Further Education

Kingsmead School Wiveliscombe, Student Teacher — Wiveliscombe, UK
Teaching computer science for years 7-10, alongside BTEC iMedia science for year 10. — Dec 2020 – Mar 2021
- Computer Science — 4 months
- Python
- iMedia
- Secondary Education
- Further Education

Cygnet Healthcare, Administrative Assistant — Weston-super-Mare, UK
Providing administrative support across the hospital, alongside supporting Mental Health Act administration during a period of staff transition. — July 2018 – Sept 2020 — 2 years 3 months
- Administration
- Mental Health Act
- Healthcare

Awards

Device Prototyping And Production Summer School Award — Lancaster, UK
Paper selected for a £1,000 award for demonstrated potential for impact, from a pool of submissions to the summer school. Funding directed toward further development of device prototypes. — July 2024

Volunteering

I'm a… Programme, STEM Outreach (Computer Science) — UK
Engaging with school students to inspire interest in computer science, answer questions about the field, and encourage young people to explore careers in STEM. — Oct 2026 – present

The Vegan Society, Education Network Volunteer — UK
Supporting the Education Officer by independently creating practical resources for vegan learners, families, and educators to promote inclusive education. — Aug 2026 – present

Hans Price Academy, SEND Link Governor — Weston-super-Mare, UK
Assisting in the strategic management and oversight of the academy and ensuring that it meets its legal and ethical responsibilities for supporting students with SEND. — Oct 2024 – present

Cats Protection, Educational Speaker — South West, UK
Ambassador for Cats Protection, raising awareness of the charity, enhancing children's understanding of feline welfare, and providing information sessions for local groups. — Sept 2023 – present

The Controller Project, UK-Based Printer — UK
Printing and assembling controller modifications for UK-based gamers with physical disabilities, directly supporting the accessibility research focus of ongoing PhD work. — June 2024 – Oct 2026

Skills

Human-Computer Interaction
- Co-Design
- User-Centred Design
- Ethics and Responsible AI
- Accessibility

AI and Data Science
- Human-in-the-Loop AI
- Data Analysis
- Data Visualisation
- Machine Learning

Teaching
- Higher Education
- Further Education
- Secondary School
- Adult

Programming
- Python
- Java
- C++
- C#

Web Development
- Front-end (HTML, CSS)
- Back-end (PHP & Python)
- JavaScript
- UX Design

Hardware
- 3D Printing
- Parametric Design
- PCB Creation
- Routing

Certificates

Psychology in Action Apr 2025

School Health for Children and Adolescents May 2022

Google Data Analytics Mar 2022

Human-Computer Interaction June 2021

Languages

English
Native speaker

French
Learning (B1)

Interests

Technical
- Programming
- Research
- Game Development
- Game Controller Modification

Cultural

- Video Games (FGC and MMORPGs)
- Movies
- Gym and Fitness
- Music
- Philosophy & Classic Literature

Social Impact

- Environmentalism
- Animal Welfare
- AI Ethics
